

GO BEYOND

Range Rover Sport 5.0L Supercharged (Petrol)

A sports tourer. For image aware achievers, it makes a seductive statement of power and style that delivers thrilling all round athletic ability with genuine 4x4 authority.

New LR - V8 Supercharged Engine

More Power. More Performance. The LR - V8 Supercharged with upgraded next generation 6-speed automatic transmissions with Command Shift helps to reach the unsurpassed levels of performance with a power output of 510 PS.

Terrain Response®

You simply have to select the correct Terrain Response® option as per the surface conditions. The system then automatically picks the most appropriate settings for the many advanced electronic controls. This ensures that all surface conditions are managed, leaving you free to enjoy the drive.

Cocooned in Sporting Luxury, Touring Comfort

The edgy, sporty, cockpit is designed to cocoon the driver. The high command, sculpted seats are made to sit in, not on, creating a more sporty experience.

Statement of Style

The desire to drive and experience Range Rover Sport is enhanced by its athletic, muscular design. The wheel arches are subtly flared, power vents sit behind the front wheels and there's a sharp muscular line that runs along the car's hips.
